ALMOST A PANIC.

REV. WALTER H. BROOKS GETS EXCITED.—A SABBATH HORROR.

On last Sunday morning the beautiful little church at the corner of 19th and I streets, northwest, of which the eloquent Rev. Walter H. Brooks is pastor, was a scene of horror for a few minutes. The church was packed with people from door to door.

A distinguished divine from Arkansas was booked to preach a sermon, and while he was discussing his text, and the people enjoying the words that fell from his lips, Rev. Brooks walked suddenly to the door that lead down in the lecture room which caused a silence all over the church, and all at once there was a look of horror and excitement in his piercing eyes.

The congregation then began to get uneasy, one would say to the other, "some one has dropped dead."

Rev. Brooks then looked mysteriously around, and in a trembling voice said, "let us all be dismissed."

The pastor was still preaching while Rev. Brooks uttered these remarks. Some one in the gallery then cried out fire; women, children, and men rushed to the door. Those who did not make a rush for the exit entrance jumped upon the benches and walked to the door.

At last their heads, the females lost their pocket-books, gloves, and other personal effects could be seen scattered over the church and in between the benches.

Ladies fainted and those men who did not lose their heads left the females to hustle for themselves.

Mr. George W. Stewart was about the only man present who tried to quiet the rushing crowd.

Rev. Brooks, after finding out that his fire was only a tempest in a tea pot, cried out, "it is all over now." This made no difference to the exciting crowd.

At the excitement, it was ascertained that some boys had lighted a piece of paper or match in the lecture room below, which caught to some other paper and caused smoke to come up in the main auditorium.

After the excitement had subsided the members reassembled and Dr. Brooks explained the cause.

Miss Maria Jordan was one of the ladies who sat quietly in her seat, which did a great deal to quiet the frenzied multitude.

Collection was \$139.40.

DEATH OF BERNARD WEST.

Mr. Bernard West, one of the most prominent figures in District politics, died at the Homeopathic Hospital this morning, where he was carried to have an operation performed.

Mr. West is the brother of Messrs. Marcus and Joseph West and the son of the late Mr. West of this city, who was a man of property and influence in his day.

Mr. Bernard West had been failing for a number of years and recently he came so sick and weak that it was impossible for him to move. He was in a hospital for some time, and his death was a great loss to his family and friends.

His death was a great loss to his family and friends.

OUR SOUVENIR EDITION.

The coming souvenir edition of The Bee will be one of the best issues that has ever been published by Afro-American press.

DISTRICT POLITICS.

THE POLITICIANS AT WORK.—BAILEY MAINTAINS HIS POSITION.—ROBT. H. KEY BOOMS.—A CONTEST PREDICTED.

The appointment of Col. M. M. Parker as the third judge of election is a matter of no small importance. It is a matter of no small importance.

There is general dissatisfaction expressed by the local leaders with the appointment of Col. Parker.

It is certain that there will be no one can make a better case for the appointment of Col. Parker.

GEO. A. CARTER.

Mr. Geo. A. Carter is beyond all doubt one of the best race men in the country.

When he was elected president of the Sunday School Union the delegates made no mistake.

He is a man of business and one who has always done everything to advance the interests of his people.

Mr. Carter is a Christian gentleman and a man of honor.

The Baptist Sunday School Union could not select a better man to manage the affairs of that institution.

The people all know him. He has been among them for a number of years, in business and socially there has not been one thing said to his detriment.

He should be continued at the head of the Baptist Sunday School Union.

He has the respect of his people and has more ability to raise money than any man who has ever been at the head of that organization.

CARSON ROUTED.

HE IS DEFEATED AT HIS OWN GAME.

The republican meeting that was called in South Washington on Tuesday night under the auspices of Carson's League was invaded by the forces of Mr. Robert H. Key and the Col. was completely routed.

The meeting was called to order by Mr. Gunnell, one of Carson's lieutenants, but as he was person grata he was not permitted to speak.

Mr. Samuel Jones was called on to speak and when he concluded, his signal being given Carson would have been landed out of the door.

When Mr. Key made his appearance there was an outburst of applause and so enthusiastic was the crowd for Key, no one was permitted to speak, except Carson, who was allowed to make his talk and not a very long one at that.

He gave the crowd to understand that it was his meeting, and if any razors were drawn he had something to stop them.

This bluff did not deter the vast crowd present, and before the Col. had finished he was notified that although the meeting may be his, the crowd was for Key.

The old man left the hall perhaps a wiser man than he has been for some time.

Carson must retire.

THE GIRLS OF JERUSALEM.

THEY KNOW NOTHING OF SOCIAL LIFE; NO COMINGLING OF THE SEXES.

Of social life the girls of Jerusalem know nothing, absolutely nothing, writes Edwin S. Wallace, United States Consul at Jerusalem, in November Ladies Home Journal.

They occasionally meet, a few together, and appear to enjoy each other's company a little. They talk about their household work which is really everything they know, and indulge in some light gossip about friends, though their gossip is never of a harmful kind.

In conversation they show some little animation and spirit, but, being ignorant and illiterate, they have no idea of grammatical form of expression.

Occasionally cards, dominoes and checkers are played, but the native girls have little inclination for any game involving mental effort.

Such things as fairs and fairs are unknown to the girls of Jerusalem; occasionally they are taken on a family picnic to some olive orchard near their homes where they pass part of the day.

From these and all similar gatherings men are barred. There is absolutely no comingling of the sexes. For a girl to appear at an assembly, where there are men would be regarded as audacious and shocking.

No Jerusalem girl would do such a thing; she would not dream of committing so great a breach in the unwritten, though well-defined, law governing the conduct of her sex.

So strict is the custom of exclusion that under circumstances would a girl attend the wedding of her brother to which were bidden guests outside the immediate families.

ANOTHER PRIZE WORD CONTEST.

The publishers of that great Philadelphia literary success, the Ladies' Every Saturday, are offering another popular educational competition with many beautiful rewards consisting of a handsome gold watch, a pneumatic bicycle, pair of genuine diamond earrings, handsome silk dress pattern, imported music box, china dinner service, coin silver watch, banquet lamp, fifteen volumes of Dickens' complete works, camera, phonograph, etc., to those able to make the largest lists of words from letters contained in L-I-B-E-R-T-Y-B-E-L-L, not using the same letter more than once.

In addition to the prizes for largest lists they also offer a valuable consolation reward to each of the fifty from whom the first list is received, containing not less than two words made from letters contained in L-I-B-E-R-T-Y-B-E-L-L. The Ladies' Every Saturday is becoming famous, not only as a high-class illustrated weekly for woman and the home, but also as a source of its great enterprise and liberality in these educational contests.

A copy of the last issue, just received, contains full particulars of the above offer, together with letters of congratulation and thanks from the many who received rewards in their last contest.

Any of our readers interested can secure a copy of their newsdealer, or by enclosing three two-cent stamps to the Ladies' Every Saturday, "Dept. C," No. 920 Walnut Street, Philadelphia, Pa.

COL. M. M. PARKER.

One of the most conspicuous and commanding figures in District affairs is Col. Marion M. Parker.

Col. Parker has allied himself with the wrong man and the sooner he realizes this fact the better it will be for him and the republican party in this city.

The District of Columbia (i. e., the republicans should have a man on the National Committee with influence, and one who has the respect and confidence of men of national reputation.

Col. Parker, The Bee must admit, is a touch with men who can do the District some good and the republican party.

Let Col. Parker ally himself with some man of character and reputation, and he will be convinced that the people will do what is right and honorable.

ANDREW GLEASON.

One of the most active republicans in this city to-day and one who has done more to advance republicanism in the District of Columbia is Mr. Andrew Gleason.

No matter what his enemies may say about him, he stands to-day head and front of any white republican who aspires for the leadership from this city to the St. Louis convention.

He has been one of the few men who has kept the republican forces in this city together and he will do more in aiding the party financially than any man who is appealing to the republican voters of this city for their support.

Mr. Gleason is an honest republican; he is a man of nerve and one who has on all occasions given aid and comfort to men who have affiliated with his party.

He never makes a promise and breaks it; he makes no pledges and disregards them.

As a republican, a man and a citizen, he is the strongest in the hearts of the bone and sinew of the republican party in the District of Columbia.

The question is what white republican can beat Gleason?

GIVE US ANOTHER.

Col. Wm. C. Moore, although a democrat, and Chief of our Police Department is beyond all doubt a fair and upright man, and it is believed if the proper man is presented to him he would not hesitate to give colored race another representative in the detective corps.

The city of Chicago has more colored detectives than we have colored police officers by a large majority.

The names of Mr. Wm. Crawford and Mr. Brockenbough will be presented to Col. Moore for consideration.

Either or both of these gentlemen would be a credit to the force. They are men of honor and have the respect and confidence of all who know them.

BAD JUDGMENT.

The excitement that occurred at the 19th street Baptist Church on last Sabbath morning, a report of which will be found in another column of The Bee, was caused by the pastor not exercising proper judgment and discretion.

Rev. Brooks should have had a little more nerve and dismissed his congregation in a different manner.

However, there was but slight damage done to the church by the burning of the stair carpet, and three or four ladies sick from excitement.

Neck ruffs for street wear are attained such size that they are frequently called collarettes. The prettiest are irregular in arrangement, being a mass of chiffon and lace, with many loops of broad ribbon. For evening wear flowers are frequently added.

While a passenger train on the St. Lawrence Railway was running at a high rate of speed the carriage in which Count Golovine was traveling with his wife and two children caught fire. The fire spread so rapidly that the Countess and her two children were unable to escape and perished to death. The Count saved his life by jumping from the train.

Henry J. Newton, a well-known merchant of New York city, was run over and killed by a cable car in that city.

Miss Anna Hayden Webster, of Haverhill, Mass., has been arrested upon complaint of her family, who will attempt to have her sent to an insane asylum. The woman, who styles herself "The Bride of Christ," has gained a few believers in that city and it is reported that they will contest the proceedings.

Mrs. Francis L. Higginson, aged forty, wife of the famous Boston banker and a social favorite, has forsaken her home and family, leaving no word behind her, and eloped with James Wheatland Smith, aged twenty-six, a lawyer. They took passage on the steamship Columbia for Genoa.

Mrs. Higginson's friends think she is of unsound mind. Mr. Higginson is a multimillionaire, and has cabled his wife \$100,000, remarking: "Why, the poor things will starve."

THE MONROE DOCTRINE.

A Meeting of American Republics Proposed to Adopt It.

Washington, Dec. 24.—Representative Beach, of Ohio, to-day introduced in the House a bill authorizing the President of the United States to invite the governments of the other American republics to appoint plenipotentiaries with full powers to meet in conference in the city of Washington within one year from the approval of the act, for the formal acceptance and declaration of the Monroe doctrine as a principle of international law.

The bill names the Secretary of State as the plenipotentiary for the United States and appropriates \$5,000 for the expenses of the conference.

He also introduced a bill providing for the reciprocal interchange of products between the United States and other nations. It reads: "The duties imposed by the tariff laws of the United States shall not apply to food products and raw materials imported from such nations as may make equivalent reciprocal concessions in favor of merchandise imported from the United States. The President of the United States, after the passage of this act, shall, through the proper diplomatic agents of the Government, negotiate commercial arrangements upon such basis with any and all foreign governments. The provisions of this act shall not apply to any article upon which an export tax is imposed."

RAILWAY COMPANY WINS.

The Ruinous Strike in Philadelphia Brought to a Close.

Philadelphia, Dec. 24.—After lasting seven days the ruinous strike of the motormen and conductors of the Union Traction Company came to an end last night by the employees accepting the terms of the company. The men struck for a working day of ten hours, \$2 per day and the recognition of the Amalgamated Association of Street Railway Employees.

The settlement of the strike is the result of numerous conferences between the executive committee of the strikers and Union Traction Company officials. Propositions and counter propositions were made by each side until the agreement decided upon was finally reached. Throughout all these conferences the Union Traction Company resolutely refused to recognize any one in the negotiations but its own employees, and the officers of the Amalgamated Association were not permitted to be present at any time.

The victory is with the company. The company has all along publicly stated that it was willing at any time to grant a respectful hearing to any grievances that its own men might have, but that it would recognize no association. The only point partially gained by the men was the unofficial recognition of their association. On the other points for which they struck they have gained nothing, and are worse off by a week's salary and the occupation of the places of 1,900 of them. These 1,900 new employees will have the preference in the runs of the cars and the old men will have to act as "trippers." All of the 1,900 new men will not remain here, as a majority of them were simply supplied during the strike by contractors. Still some two or three hundred of the new men will remain here permanently.

At a mass meeting of the strikers last night the agreement entered into by their executive committee with the Traction officers was ratified. The conclusion of the strike will be greeted with joy by all classes of citizens.

The Christmas shopping trade was killed, and directly and indirectly it is a fair estimate that the seven days' strike cost the Traction Company its employees and the merchants of Philadelphia \$2,000,000.

Our souvenir edition will contain some great men.

The opinions of great men will be expressed in The Bee.

Senator Sherman is not at all disturbed in mind.

He had to get even with some one.

The greatest men in this country are the ones who succeed.

The success of all men is due to their ability to succeed.

The Bee is the peoples paper.

Let us have war or peace.

If the United States and Great Britain go to war, what part will the negro play?

England has never betrayed the negro.

The United States must protect negro to aid in their defence.

The negro abroad if the American.

Perhaps it would teach this country a lesson if she had a tilt with John Bull.

The negro is ready to do his duty when his interests are protected.

In Union there is strength.

The Blue and Gray are becoming friends.

The negro is still appealing to both for protection.

The Blue and Gray have joined hands in defence of Americas freedom.

The negro is being butchered for no cause whatever.

Will the negro war with Great Britain?

Perhaps he will not be wanted.

He was not wanted in the late civil war until on the eve of the defeat of the Union army.

Will the American government ever treat all of its citizens alike?

Don't fail to send in your news for the souvenir edition of The Bee.

It will be the greatest issue published.

Let us be united.

It is a true saying, all that glitters is not gold.

Manhood is what is needed among Afro-Americans.

The Bee is the paper that speaks the truth.

There are 215 colored men on the Chicago Police force.

The negro in Chicago is a man.

Where there are the most laws enacted there is less protection.

There are more laws and police regulations promulgated in this city than any three states in the Union, and less protection to the citizens.

Let us have less laws and more order.

PISO'S CURE FOR CONSUMPTION

Piso's Cure for Consumption is also the best Cough Medicine.

If you have a Cough without disease of the Lungs, a few doses are all you need. But if you neglect this easy means of safety, the slight Cough may become a serious matter, and several bottles will be required.

Should you find a friend acting in a false manner, all that one can do is to try and cultivate the friendship of those we believe to be honest and true.

SUICIDE RAMPANT.

Great Wave of That Awful Crime in New York.

New York, Dec. 26.—Simultaneously with the arrival of Christmas the metropolis was struck by a suicidal wave which made a strong contrast to the happiness and good cheer supposed to prevail during the holiday season.

Lena Kunzelman, a young married woman, of No. 630 East Eleventh street, attempted suicide shortly after midnight yesterday morning by swallowing a quantity of Paris green, but an ambulance surgeon pumped out the poison and announced that the woman was out of danger.

Margaret McDermott, twenty-three years old, residing at No. 25 Hancock place, committed suicide last night by taking carbolic acid.

Robert Glass, forty-three years old, living at No. 22 St. Mark's place, was found dead in bed last night, and a bottle half filled with carbolic acid was lying near by on the floor.

Jacob Dier's dead body was found late yesterday afternoon hanging in a closet of the flat of a dressmaker named Pauline, at No. 67 Douglass street, Brooklyn, where he lived.

Paul Otto, nineteen years old, of No. 9 Cook street, Brooklyn, is dying in the Eastern District Hospital from a self-inflicted bullet wound, because his father, who recently died in Germany, had disinherited him on account of his waywardness.

The wife of John Keenan, of No. 77 Bergen street, Brooklyn, jumped off a pier at Bath Beach yesterday afternoon and drowned herself.

Mary Markham, a servant, was found unconscious in her room at No. 34 East Seventy-third street yesterday morning. She had inhaled illuminating gas, which the police believe accidentally turned on. The girl died soon after being discovered.

Shortly after 5 o'clock yesterday afternoon Emil Krume, of this city, went to his room, and with a 38-calibre revolver discharged a bullet into the right side of his head. He will probably die. No cause is assigned for the act.

Max Raeger, a driver, twenty-four years of age, committed suicide last night by drinking carbolic acid. Raeger had been in the best of spirits all day, and no cause can be ascribed for the act.

ST. LOUIS CHRISTMAS CRIMES.

Six Shooting Affrays and Two Cases of Suicide.

St. Louis, Dec. 26.—Lulu Chapman, colored, was shot twice yesterday by John Brennan, a lad who had received a rifle from Santa Claus.

William Poutell wanted a free drink from Barkeeper Robert Wright and received a bullet in his head.

Lulu Howard and Alice Roberts quarrelled and Alice Roberts was fatally stabbed.

Simon Winn interfered with a policeman who was attempting to arrest his brother and was shot by the policeman.

Frank Jackson started a Christmas row in the yard in which he lived. It became general and when it was over Jackson was found with a bullet in his body.

William Kauss was found in Foest Park shot through the right breast. He refused to tell who shot him, saying that he had provoked the quarrel.

William Dugdale became despondent and took morphine, and Harvey Willson had a rumper with his wife and took carbolic acid.

WAR IS DUE.

According to Lt. Col. Henry, of St. Louis—What England Would Do.

St. Louis, Dec. 26.—Lieut. Col. Guy Y. Henry, commander of the Jefferson barracks, talked freely on the possibility of war with England and its results. "It is a historical fact," said Col. Henry, "that the United States has engaged in a war about every twenty-five years, and the time is ripe for another engagement. The only thing that will stave off a conflict is a backdown on the part of England."

"If hostilities should break out England's course would be to attack our seaports. She would station ironclads in front of New York and Boston and shell the cities, but that is not the entire country. As to landing troops in Canada, I venture to say that we could get 1,000,000 men over there inside of thirty days, men, too, who have smelled powder. We could conquer the whole of Canada and prevent them using that as a base of operations. England might land troops elsewhere, but that is a small part of the business. The principal part of the work is to keep the men supplied with food and ammunition after they have landed."

Started a Mill by Wire.

Gadsden, Ala., Dec. 26.—The Dwight Manufacturing Company, of Chicopee, Mass., started its Southern mill here yesterday by electricity. A young woman at Winona, Minn., touched the button that started the machinery at 1 o'clock. She christened the 15,000-horse power engine Maybienne. The Western Union Telegraph Company arranged the electrical apparatus by a right circuit of 2,300 miles. The mill began operations yesterday. It is of 30,000 spindle capacity and is the largest in Alabama. The electrical arrangement was fixed so as to break a bottle of champagne over the engine at the moment of christening. The mill employs 800 people and 250 cottages are now being completed by the Dwight Company.

Preferred Poison to Pistol.

Camden, N. J., Dec. 26.—The body of a well-dressed middle-aged woman was found in a yard in this city yesterday morning, and has given the police a new mystery to work on. The dead woman was perhaps fifty years old. She was neatly attired in black. By her side lay a small vial which contained a few drops of carbolic acid, and underneath her skirts was a new revolver which contained no cartridges. There is no clue to her identity.

Man and Wife Killed by Gas.

Hummelstown, Pa., Dec. 26.—John H. Baulsbaugh and his wife, who reside near Swatara, were found dead in their rooms yesterday from the effects of coal gas from a defective stovepipe. Mr. Baulsbaugh was a director of the Hummelstown National Bank for many years. An only son survives.

BROTHERS SHOT BROTHERS.

An Overcoat Saved Young Clarence McMurry, but Wilber Plum Was Not So Lucky.

Plainfield, N. J., Dec. 24.—That Clarence McMurry, of Somerset street, is alive is due solely to a heavy overcoat. Yesterday morning as Mr. McMurry was preparing to leave his home for Scott's Press Works, where he is employed, Clarence's little brother Raymond, looking around for mischief, spied an old revolver, which had not been used for years. Going into an adjoining room, he saw his brother with his heavy overcoat on, and thoughtlessly pointed the revolver at him, exclaiming: "Look out, or I'll shoot!"

The revolver went off. The bullet whistled by the head of Mrs. McMurry, who was carrying a lamp and let it fall in the excitement. The bullet hit Clarence just below his left shoulder-blade. The wound bled considerably, but Dr. Zisler says the injury is not dangerous. The boys were close enough together when the bullet was fired to have caused instant death, but for the fortunate protection of the heavy overcoat.

Shoots His Little Brother.

Camden, N. J., Dec. 24.—Nine-year-old George Plum probably fatally shot his brother Wilber, six years old, at their home at Biedeman's Station, just above Camden, last night. The boys' parents, Mr. and Mrs. Maurice Plum, had gone out, leaving the youngsters alone in the house. George began playing with his father's breech-loading shotgun, but was greatly displeased to find that it was not loaded. He soon found the shells, and, placing two of them in the gun, pointed the weapon at his brother and pulled the trigger. The shot took effect in the child's head and face.

PHILIPS AND LINCOLN.

Invited by the President to Act as Venezuela Commissioners.

Washington, Dec. 26.—The President has tendered places on the Venezuela commission to Edward J. Phelps, of Vermont, ex-Minister to England, and Robert T. Lincoln, of Illinois, ex-Minister to England.

Their acceptances have not been received and the third place on the commission will not be filled until Mr. Phelps and Mr. Lincoln accept. It is said that Mr. Lincoln was Secretary Olney's own selection, and that Chief Justice Fuller, of Illinois, also strongly recommended him, on the ground that a report signed by two former American Ministers to England, both of whom have been warmly praised by the British press for many years, will have much weight in Great Britain. It is urged that public opinion in England cannot ascribe to such men as Phelps and Lincoln any prejudice against England, where they are both very popular.

The third member of the commission is likely to be one of the Associate Justices of the United States Supreme Court, probably either Justice Brewer or Justice Brown. Mr. Harlan, whose selection was strongly urged by several Senators, is not considered by the President.

NEW MEXICAN ARMY RIFLE.

Astonishing Demonstration of Its Force—Old Horses as Targets.

Mexico City, Dec. 26.—The Department of War of the Mexican Government has recently made a most satisfactory test at 200 yards of the new rifle it is proposed to adopt in the Mexican army. A block of hard wood, nearly six feet thick, was penetrated about thirty-nine inches, which is said to exceed the record made by any other gun.

To study the effect of the projectile upon a living body, five disabled artillery horses were stationed at a distance of 1,200 yards from the riflemen. The first horse fell, pierced through the heart and died instantly. The death of the others was almost as rapid. The autopsy showed that the projectile, small though it was, was marvellously effective and must necessarily, by its shape and speed, prove almost instantly fatal. Another singular circumstance noted was that the entrance made by the bullet was so small as to be scarcely perceptible.

SHORES STREWN WITH WRECKES.

Violent Gale a Continue on British Coast—Ships in Distress.

London, Dec. 26.—The heavy gale has continued all around the coast of Great Britain and Ireland. Many small wrecks have occurred within sight of persons on shore, and much wreckage stranded tells of further disasters of which the details are not yet known. The greatest anxiety is felt for all vessels known to be at sea in the neighboring waters. Several gallant rescues are reported.

The trawler Sunrise took refuge at Aberdeen in a much-damaged condition. Five of her men were drowned. Friends of the crews of vessels in distress gather on the shores, and there are heartrending scenes among the helpless lookers-on.

In Kingstown Bay the bodies of the crew of the lifeboat which yesterday went to the rescue of an unknown three-masted vessel flying signals of distress, but which capsized before reaching the ship, are coming ashore.

Shot at Wife and Self.

New York, Dec. 26.—In a sudden fit of insanity, the culmination of weeks and weeks of despondency, brought on by family troubles and lack of work, Alfred F. Walker shot his wife, Mary, yesterday afternoon in the room of the Kings County Lunatic Asylum, at Flatbush, in which institution she had been confined as a patient since last May. Then putting the pistol to his own head, he fired a second shot, from the effects of which, in all probability, he will die. Mrs. Walker was not seriously wounded.

Canadians Called to Arms.

Halifax, N. S., Dec. 26.—One of the leading newspapers of this city expresses the opinion that there has got to be war between Great Britain and the United States. It believes a conflict absolutely unavoidable, and urges Canadians to at once prepare for it, so as to be found ready at the right moment.

GENL. HARRISON.

It is said that the negro republicans are opposed to the re-nomination of ex-President Harrison for President.

So far as Genl. Harrison is concerned, there has never been a President who has done more for the negroes of this country than Genl. Harrison.

Because he would not allow a class of crafty politicians to run him he was defeated. The negro has always regarded Genl. Harrison as his friend. He has proven that on more than one occasion. If he were nominated to-day he would sweep the country, notwithstanding the predictions of his enemies.

He was safe and loyal to his party and true to his country. Let us hope that the next Republican Convention may not nominate a worse man than Genl. Harrison.

IN A MUDDLE.

The National Republican Committee has made a mess of things in District politics. Who ever heard of three judges of elections being appointed who are themselves candidates for office, and they are to be judges of their own election.

There are at least ten candidates for delegate from this city excluding the three gentlemen who have been named as judges of elections. Things are in a muddle and if the members of the National Committee are satisfied that they have rectified things in this city they are mistaken.

ARBITRARY POWER.

What authority the National Republican Committee had to abolish the Republican Central Committee of the District of Columbia no one knows.

The District republicans are a set of cowards and sers and seem willing to accept every and any imposition and indignity that may be inflicted upon them.

There were two republican organizations in the District of Columbia, at the time the National Committee appointed the three judges.

The only question to be decided was which one was the legal committee. Instead of doing that both republican organizations are abolished and the judges of elections have been appointed, who are avowed candidates for delegates.

How will such procedure settle the differences among the republicans?

What can be expected but a contest from this city to the National Convention?

Chairman Carter made the same mistake that the National Committee made and that was to appoint as one of the judges of elections, a man who is a candidate.

Does Chairman Carter and the National Committee think that the republicans of this city will swallow such? We are also told that, if there is a contest representation in the District of Columbia to republican conventions, will be denied the republicans.

Could the National Committee take away the representation in the South?

This was talked of some time ago, because the negro delegates had their choice, or because they favored Genl. Harrison.

Because a set of republicans express their opinion about a matter

that interests them, their rights must be denied them.

The republicans in this contest mean to have a fair deal, the National Committee to the contrary notwithstanding.

TAKE HEED.

When the republicans in this district, also the members of the Afro-American League are called upon to cast their votes at the primaries, please take notice, if these men are candidates who have certain houses designated for colored people, and they can be found in the alleys or some other isolated place let him remain at home

FOR COLORED PEOPLE ONLY.

Are these the kind of republicans that must represent you? Men who want the suffrages of the people should be made to treat them with respect and consideration.

At the proper time The Bee will expose these hide-bound republicans and teach them to know their places.

THE AFRO-AMERICAN LEAGUE.

The members of the Afro-American League which number over 30,000 are requested to patronize all persons in business who believe in race enterprise.

The Bee is the organ of the league and it is requested that its advertisers be liberally patronized.

VENEZUELAN COMMISSION.

The President has named his Venezuelan Commission, who are men of sound judgment and national reputation.

The bill that passed Congress and created the commission and the appointment of the same was done after mature consideration.

Our Congress is to be congratulated, and the President showed good sense when he appointed men of such character and learning.

The Commission stands as follows: Daniel J. Brewer, of Kansas; Richard H. Alvey, of Maryland; Andre D. White and Frederick R. Coundent, of New York. The temper in the tea pot will be settled by arbitration.

The Bee will contain a true account of the treatment of colored people at the Atlanta Exposition by a gentleman of high moral and intellectual standing.

Editor Fortune of the New York Age gave a true expose of the treatment of the colored people at the Atlanta Exposition.

Our advertisers are notified to be aware of bogus advertising agents.

The National Committee and the daily press will find out that the day of bossism in the District of Columbia has passed.

Onward is the watchword of The Bee.

The souvenir edition of The Bee will be issued January 11th or 18th.

Mr. R. H. Key is making a brilliant fight.

ANTARCTIC EXPLORATION.

What the British Scientific Societies are

Organizing to Carry Out.

Three great British scientific societies are agreed that it is the duty of the British Government to fit out an expedition for thorough antarctic exploration. In November, 1893, the Royal Geographical Society appointed a notable committee to inquire into the propriety of such an expedition and report. They reported in favor of having the Government send two suitable vessels to explore the south polar regions and keep them at it for three years. The report was adopted and transmitted to the Royal Society, which in turn appointed a powerful committee, which in May, 1894, reported strongly in favor of the scheme. At the beginning of the present year the council of the British Association gave the plan its vigorous endorsement, and it doubtless took further action on it at its recent annual meeting in September. The plan of Dr. John Murray, of the Challenger, who addressed the Royal Geographical Society on the subject two years ago, was to send out two suitable Government steamships of about 1,000 tons each, have them start in September, land a company of about ten men somewhere south of Cape Horn and another in Victoria Land and have these parties spend two years or more ashore, exploring the antarctic continent. The ships would land the shore parties the first summer, visit them the second, and take them on the third, and would spend their own winters and all their other available time in deep sea and other observations along the outer margin of the antarctic ice.

What may be found on the antarctic continent no man can say. Animal life in abundance was found last year at Cape Adair by C. E. Borzhgrevink, a young Norwegian, who sailed there as one of the crew of a whaler, and whose account of his experiences excited interest at a recent geographical congress in London. Mr. Borzhgrevink wants to go back, and writes to the London Times pressing for "further and immediate research within the antarctic circle." It is held to be possible that a new race of men may exist somewhere within hall of the south pole, and that such creatures as the ichthyosaurus may still survive in the antarctic seas. Seals and sea-birds are abundant there, what else no one can say; but many inquisitive persons want to know.

Our countryman, Dr. Frederick Cook, greatly desired to fit out an American south polar expedition to start out this last fall and catch the next antarctic summer, but his efforts in the direction seem not yet to have come to anything. Perhaps he will do better another year; but at any rate there seems a real prospect that a serious attempt to find out whatever can be known about the antarctic continent will be made before the present century ends.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAINS MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is too great to be trifled with. It is derived from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and is made in Toledo, Ohio, by F. J. Cheney & Co.

BOND ISSUE COMING.

President Will Act When the Gold Reserve
Falls to \$60,000,000.

New York, Dec. 17.—The withdrawal

to-day of \$3,150,000 in gold for shipment

leaves the Treasury reserve at \$72,804,

766. President Cleveland, seeing that

a bond issue must come, has been in

personal consultation with members of

the syndicate which advised and man-

aged the last issue, according to the

World this morning.

The details of a plan for the issue

were partially agreed upon, and it is

understood that the President will or-

der the issue as soon as the reserve

strikes the \$60,000,000 mark. The issue

will be for at least \$50,000,000, possibly

\$100,000,000. The syndicate will not

agree again to try to protect the Treas-

ury reserve by controlling the exchange

rate.

It is the general feeling that to-day's

shipment will be the last for some time,

but it is thought that the President's

mark of \$60,000,000 will be reached in

the first fortnight of the new year

when the bond issue may be expected.

A great deal of money will come into

the market on January 1 as interest

payments. That will make rates eas-

ier until the money is absorbed in in-

vestment. But as soon as business

gets fairly started in the new year

gold shipments are likely to be resumed,

particularly as a sharp demand for

gold in Russia is expected.

A JOKE ON SENOR DE LOME.

Salts, Dust and Ashes Filled His Infernal

Machine.

Washington, Dec. 17.—A servant be-

longing to the household of Senor

Dupuy de Lome, the Spanish Minister

found on the doorstep Sunday morning

a mysterious box, from one end of

which protruded a partly burned fuse.

The servant slammed the door and fled

inside. The police were notified. Sergt.

Harbison came and inspected the box

at long range. Then he approached

closer and gained confidence. Finally

he picked it up, contemptuously stuck

it under his arm and lugged it down

to headquarters.

It was an ordinary pasteboard box

in which flowers had been sent to some

customer from a local florist. Inside

was a grayish substance. The District

chemist, to whom this was given for

examination, said it was a cheap grade

of salts of ammonia mixed with coal

dust and ashes. At the bottom of the

box were three pieces of zinc from a

worn-out cell battery, fastened together

with wire. The fuse was a piece of

rolled-up paper. On the box was writ-

ten: "Cuban freedom—Christmas greet-

ing to Senor De Lome."

WITH ROYAL SPLENDOR.

Over \$100,000 Expended on the Contard-

Busch Wedding in St. Louis.

St. Louis, Dec. 17.—Clara Hazel

Busch, daughter of Adolphus Busch,

the brewer, and Paul von Contard,

head of a big iron foundry in West-

phalia, were married in the Church of

the Messiah last evening. It was one

of the most sumptuous weddings ever

recorded in this land.

The Church of the Messiah is an im-

mense edifice, but all its vast interior

was hidden under thousands and thou-

sands of dollars' worth of white ro-

ses, of the valley and hyacinths, the

whole producing an effect of dazzling

whiteness. An entire floor of the

Southern Hotel, where the reception

took place after the wedding, had been

repainted, redecorated, regilded and

refurnished with new carpets and fur-

niture of special design for the wedding

guests, who had come from Europe at

the invitation and the expense of the

bride's parents. The affair must have

cost over \$100,000.

Hidden on a Rail.

Brookline, N. H., Dec. 17.—Summer

Burgess was decoyed from his house

by Whitecaps last Monday and ridden

on a rail some distance out of town and

subjected to other indignities. Yester-

day four of his assailants, whom he had

recognized, paid fines of \$10 each for

their fun. They were Charles Wilkens,

Frank Melendy, Arthur Bushad and

Oscar Elliott. All of these, as well as

Burgess, are church members. Burgess

recently sought separation from his

wife, and since then, it is said, has been

paying attentions to a woman in a

neighboring town. The townspeople

are divided on the affair, some believ-

ing that Burgess got no more than he

deserved, while others say the White-

caps should be put down.

Another Sugar Company.

Trenton, Dec. 17.—Articles of incor-

poration of the United States Sugar

Refinery Company were filed yester-

day in the office of the Secretary of

State. The company is capitalized at

\$2,000,000. One-half of the stock is pre-

ferred, with 8 per cent. cumulative div-

idends payable semi-annually. The

main offices of the company are to be

in Camden, Philadelphia, New York

and Boston. The incorporators are

Thomas W. Synnot, of Wrentham; John

P. Whitney, of Glensboro, and George

Burnham, Howard W. Pippin and

Charles Benjamin Wilkinson, of Phila-

delphia.

SLAUGHTER AT ZEITOUN.

10,000 TURKS, WITH 24 CANNON,
FIGHT SAVAGELY WITH 15,000
ARMENIANS.

Both Sides Lost Frightfully—City Was De-
fended by Armenian Revolutionists and
Attacked by Regular Troops The Sul-
tan's Ideas of Reform.

Berlin, Dec. 24.—A Constantinople
dispatch to the Frankfort Zeitung re-
ports that there has been fierce fight-
ing at Zeitoun between the Turkish
troops, who surrounded the city, and
the insurgent Armenians, who defend-
ed it. Both sides are said to have lost
frightfully. The Turks were 10,000
strong, and had twenty-four pieces of
artillery. The Armenians numbered
15,000, but they had no artillery.

Boston, Dec. 24.—A detailed account
of the massacre of Armenians at Billis
has reached this city from a correspond-
ent in Eastern Turkey, who writes:
"The outbreak began when the Turks
went to the mosque at noon. Contrary
to custom the Turkish shops, per-
sonal and locked their doors before
going to prayer. This alarmed the Ar-
menians (who had been already threat-
ened with massacre) and they began
to close their shops also. The police
interfered to prevent this. Some Ar-
menians ran away to escape. Then a Turk
named Yuluf fired a gun and the peo-
ple rushed out of the mosque and be-
gan the attack upon the shops. The
massacre which followed was the work
of officials. The troops were called to
the work by the bugle and they were
stopped by the bugle."

Another correspondent, writing from
Constantinople, asserts:

"The massacres, undoubtedly ordered
from the palace, are to be confined,
with some possible exceptions, to the
six provinces embraced in the scheme
of reform, and unless some change is
made in the Sultan's attitude towards
the provinces in this direction it is not
likely that the dreadful experiences
which have fallen upon the provinces
in Armenia will be repeated in those
near the capital. It is difficult to un-
derstand fully the long period of in-
action maintained by the European
powers. It is believed here that the
reason for this is that they find it dif-
ficult to agree upon the question of the
partition of the empire, in case it is de-
cided to make an end of the Ottoman
rule. Ever since these unhappy nego-
tiations began hopes of something to
be done in the future have been held
out, but the great effort of the powers
has seemed to be how they could keep
in concert in the business of doing
nothing at all."

Lynn, Mass., Dec. 24.—Several Ar-
menians who came from the same part
of Eastern Turkey, and who are em-
ployed at Ira S. Franklin's morocco
factory in this city, received a cable-
gram yesterday that members of their
families were among the victims of re-
cent massacres.

9,000 INVADE MATANZAS.

Spanish Charge Gomez's Force Eight Times
in a Two Hours Fight

Havana, Dec. 23.—The Diermen bat-
talion, under Gen. Asturias, with artill-
ery, has attacked Gomez and a force
of 4,000 insurgents. The fight occurred
near the River Colmena and lasted two
hours. The positions controlled by the
insurgents were attacked eight times,
the insurgents fighting with the mach-
ete. The attack of the troops was made
with the bayonet. This, combined with
the artillery fire, proved effective, and
the insurgents fled. The insurgents
left on the field twenty-five killed and
prisoners and seventy wounded. The
cane field at Aguadita is burning.

The official reports from the front say
that the forces now invading Matanzas
number 9,000 and that they have car-
ried away many of their dead and
wounded. The loss of the troops is
stated to be insignificant.

Official advices from Colon of the en-
gagements with the insurgents report-
ed Saturday as taking place near there
convey the impression that they were
unimportant, and that the insurgents
got the worst of them.

Gen. Navarro, who was reported as
leaving Colon for the relief of the Span-
ish forces, encountered the insurgents
at the Plantation Espana, where he
rescued the detachment of Antilla. He
followed the insurgents upon their re-
treat and overtook them at the Planta-
tion Alava, the canefield of which was
burning. Here a fierce fight occurred,
and the insurgents were dispersed with
heavy loss. The number of soldiers
killed is reported as seventeen. Gen.
Navarro again went in pursuit, and at
Banaguera the insurgents attacked him
with great impetuosity. The troops
made a brave defense. Gen. Navarro
made a forced march to cut off the insur-
gents' retreat.

The insurgent leader Mirabel has
been killed. Gen. Campos is at Jovel-
lanos, about eighteen miles west of
Colon.

Salvador's Washington Protest.

San Salvador, Dec. 26.—The represen-
tative of this country in Washington
has been instructed to complain to the
State Department that the authorities
at San Francisco have permitted the
outfitting of the boat Golden Barclay
by the friends of Esata, designed as a
subversive expedition against a
friendly nation, such act being a viola-
tion of the neutrality laws. It is
claimed that the American Government
should have prevented the vessel's leav-
ing San Francisco, and should have
imprisoned Casin and the members of
the Central American Land Company,
who have furnished money to Esata
to carry out his revolutionary plans.

A Coward's Act.

Jackson, Miss., Dec. 25.—Prof. T. W.
Saunders, a deaf mute, and for many
years teacher in the State Deaf and
Dumb Asylum, was shot and instantly
killed last night by his nephew, C. R.
Young. Prof. Saunders was to act as
Santa Claus at the Christmas tree get-
ten up for the amusement of the deaf
and dumb children in the institute, and
called at Mr. Young's house in his
Santa Claus garb. His knock at the
door was heard and Mr. Young, the
only occupant, demanded "who is
there?" and receiving no reply, fired
through the door at what he supposed
was a burglar. Prof. Saunders dropped
inside the hall and died in two minutes.

A POINTER ON THE SIDE

Don't talk loud or be boisterous in order to make your self conspicuous. Don't allow yourself to be persuaded to discard a true friend by your enemies.

A great many people never think of their neighbors until trouble overtakes them, then they can be seen asking for their assistance.

It is better to have one true friend than it is to have a thousand false hearted friends.

The girl who associate with a woman whose character is questionable will soon be ruined.

Ella: I certainly would not accept his invitation. Take my advice and don't let him know you need his company.

All men are not alike, but most of them have the same opinion of a girl who has a large number of callers and seemed equally please with them all.

The girl to be honored is the girl who works, but she must be careful not to spend her money on a worthless man.

Flossie: You are perfectly right to decline answering personal questions. Household matters should be confined to the home.

I don't approve of whispering in company. It shows ill bred and weakness.

Virgie: How can you expect your husband to treat you right when your habits and temper are so bad? Remember, a man with bad habits will at times beguiled by a good woman and become a model man.

Every individual should have more than one vocation in life, so that if driven from that of his choice, he will have a second to fall back upon.

Kindness is not always appreciated by some people, especially when they are not in trouble.

Marie: If that man has a stronger feeling for you than mere friendship he will certainly make an effort to see you and tell you all his wishes. You over anxiety makes you appear silly.

When a girl allows a man to adopt such an easy and free-handed way with her he cannot have but a very little respect for her.

Girls should not accept courtesies altogether too much as due them. What ever comes to us in the way of attention be it ever so small, we should not fail to acknowledge it.

It hardly seems plausible to make an excuse except you are guilty of some offense or neglect of duty.

It is not good taste for young ladies to receive gentlemen friends in a tea gown. Tea gowns were dedicated to matrons, but even they have quietly laid them aside.

Nothing will more thoroughly stultify the spirit of gallantry in our young men as an indifferent reception of their courtesies or attention at the hands of young women.

New Year: The only gifts recognized as proper from a gentleman to a lady are flowers, books, music, or sweets, except they are engaged.

It is not manly for a young man to impress upon a girl that he thinks the world of her "just for fun"; and silly is the girl who can be so easily influenced.

Lulu: I do not approve of secret marriages, and the suggestion of one is anything but of compliment to a young woman.

It is not out of place for a young girl to see her betrothed should he be sick, providing she makes the request to his mother or those in charge.

Always when a bride gives something toward her future home, let it be linen, and they should be marked in her maiden name.

A sensible girl will make a man prove his seemingly devotion to her other than mere words. If he thinks you are the best creature on earth, he will provide for you a home.

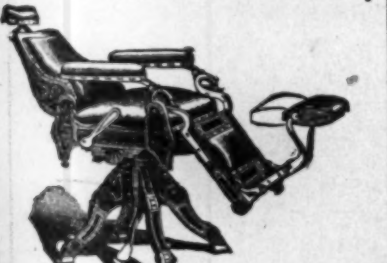

Don't think that because a young man does not indulge in wines and refrains from smoking as well, that he is unassuming; such men usually make good husbands.

No girl should visit a young man's home except an invitation is extended by his mother, and if he has a sister it would be advisable to wait for her to pay her a visit.

Remember girls, when you get a position that was previously held by the masculine sex demand the same wages. If not better, as already men have begun to complain of women bringing down their wages.

[From the American Star.]

Washington newspaper publishers are getting up in the world. Friend Cooper has removed the Colored American's old hat and put on a regular "Dunlap" headgear, while Brother Chase politely dumped the "old hive" and procured a brand new hive with artistic cells, and of course the Bee is humming. Both papers are beautiful. We like to see it, if we can't.

"BETTER LATE THAN NEVER."

[From the Texas Freeman.]

We are just a trifle late in saying so, but the Washington BEE has made mechanical changes that improve its appearance and reflect credit on the management.

THE WASHINGTON BEE RECENTLY MADE

considerable improvement in its appearance and enlarged its size to a quarto. Since his late little unpleasantness Chase seems to be "stronger than ever."

[From the Appeal.]

The Washington BEE recently made considerable improvement in its appearance and enlarged its size to a quarto. Since his late little unpleasantness Chase seems to be "stronger than ever."

[From the Washington Post.]

The Washington (D. C.) BEE has been enlarged and substantially improved. The general tone and character of the BEE sustain the place and name it has made for itself under the editorial management of William Calvin Chase.

[From the Fourth Estate.]

THE BEE BUSIER THAN EVER.

The Washington (D. C.) BEE has been enlarged and substantially improved. It is now an eight-page paper. The general tone and character of the BEE sustain the place and name it has made for itself under the editorial management of William Calvin Chase.

[From the Southern Forge.]

The Washington BEE comes to us this week in great shape. It has a new head and twice the size. Brother Chase is going ahead. And if you bother the BEE you'll get "stinged."

[From the Alexandria Leader.]

The Washington BEE has purchased an entire new outfit. The BEE will be issued as eight-page paper. May success attend the BEE.

[From the Evening Star.]

ENLARGED TO EIGHT PAGES.

The Washington BEE appeared Saturday, enlarged and substantially improved, as an eight-page paper. It also presented many illustrated features, including portraits of Major Moore, Commissioner Ross and other District officials and prominent citizens. The general tone and character of the BEE sustain the place and name it has made for itself under the editorial management of William Calvin Chase.

The leading editorial Saturday pledges support to Gov. McKimley's candidacy for President.

[From the Western Optic.]

The Washington, D. C., BEE is out in a new dress of type and with its improved make-up now ranks with the foremost Negro newspapers in America. May the BEE improve each shining hour.

[From the Athens Clipper.]

The last issue of the Washington BEE presents a very pleasant appearance to the public. It has eight pages abounding in rich reading matter. Editor Chase has lost none of his old time vigor in wielding the pen. The Clipper congratulates the BEE and hopes it and its editor may live many years to sting the enemies of the race.

[From the Baltimore Standard.]

The Washington BEE comes to us this week in an eight-page form, and much improved every way. Editor Chase is to be congratulated.

[From the Chicago A. M. E. Record.]

The Washington BEE came out last week, considerably improved. It is now a six-column quarto, and has the appearance of property stamped upon all of its departments.

THE STING OF THE BEE.

From the Wide Wake.

Here's to you editor Chase on the successful appearance of The BEE. May it continue to sting the wayward

HEWING TO THE LINE.

[From the Chicago Republican.]

Brother Chase, of the BEE, is still hewing to the line in Washington. He certainly has the courage of his convictions. A recorder of deeds in Washington cuts no figure with Chase.

CONGRATULATES THE BEE.

WILLIAMSPORT, Pa.,

October 12, 1895.

W. Calvin Chase,

Dear Sir: Inclosed find check for the amount I owe you. I congratulate you upon the improvement of the new issue of your paper. I am glad to see you are aiming aright for the future as you have always done in the past.

With best wishes for your success, I am, yours, respectfully,

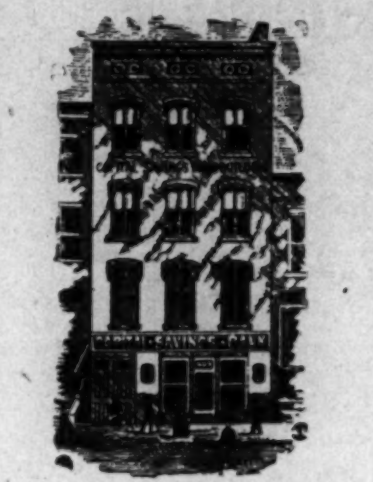

Mrs. M. A. Hagan.

DELEGATE CONTEST.

There seems to be some doubt
among the politicians as to who
will be the strongest and best man
to represent the republican party
from this city in the next national
convention.

The BEE has printed a list of the
gentlemen who have been men-
tioned as candidates, and as an in-
ducement to make this contest in-
teresting, the BEE will present a
fine gold headed cane to the candi-
date who receives the highest num-
ber of coupons. The coupons will
be received and counted by the con-
test editor, and all coupons will be
kept and counted in the presence
of a committee to consist of one
friend from each candidate.

Each coupon will count one vote,
which must be sent to the contest-
editor of the BEE.

THE PEOPLE'S CHOICE.

WHO WILL THE NEXT DELEGATES BE?
VOTE FOR YOUR CHOICE.

The coming Republican contest for
delegates to the next National Repub-
lican Convention will be a hot one.
Public meetings have been held
throughout the city, and it is still un-
decided who the most popular man is.

As a test of each man's strength the
BEE will publish the list of the probable
candidates, with a coupon attached,
which will enable friends of each candi-
date to vote for his choice.

Gentlemen:—My wife has been suffering with chronic rheumatism and neuralgia for two or three years. I had tried everything that any one would recommend, but all failed. At last the Mexican Mustang Liniment was recommended to me by a well-known member of the First Baptist Church of this city, S. E. Farham, a coachman, who said that he had pains in the back and used Mustang Liniment and it cured him. I tried it and it has cured my wife.
